

JENNIFER A. DESAUTELS, P.E.

Project Manager/Engineer

Jenn is responsible for project management, permitting and engineering design. She coordinates with clients, other consultants and review agencies. Her skills include:

- **Project Management** – Oversees all aspects of industrial, commercial and residential development projects.
- **Site Planning & Engineering Design** – Roadways, parking facilities, commercial/retail facilities, industrial parks and residential development projects.
- **Permit Acquisition** – Local and state approvals including Act 250, subdivisions, zoning, wastewater and water supply, wetlands and stormwater.
- **Stormwater Management** – Design of various stormwater systems including open channels, closed pipe systems, detention facilities, best management practices, hydraulic analysis and hydrologic computer modeling.
- **Erosion Control** – Design and preparation of erosion control plans and documents for commercial and residential construction sites.
- **Construction Phase Services** – Prepares addendums, shop drawing reviews, contractor/owner coordination, performs field observation, attends site meetings, and performs cost estimating for projects.

Work History

Prior to joining Trudell Consulting Engineers, Jennifer worked as a Senior Project Manager for an engineering and survey firm specializing in residential and commercial development, M2 Group, Inc., in Mesa, Arizona. She also worked as a Project Engineer for a site design firm, Karins and Associates, in Newark, Delaware. She has strong communication and project management skills.
